

Ad Me!

(Consumer Math advertisement writing project)

Create an advertisement to sell an item of your choice. This advertisement should be intended for a newspaper, magazine, bulletin board, or online marketplace such as eBay or Craigslist.

Be sure to include:

- a complete description of your item
- its original price
- the price you are asking for the item
- a drawing or picture of the item
- the cost for shipping & handling, when necessary
- any other important details

Be sure your description is complete. You can get ideas for your own advertisement by looking at newspapers and magazines in their classified sections, by looking at bulletin boards, and by looking online.

Ads must be turned in online in our Google Classroom to avoid a substantial scoring penalty (15%).

If you have any questions, do not hesitate to ask.

The completed project is due on or before Monday, March 13.
