

Soda Santa

To answer the following questions check out the picture of Soda Santa linked in the MathLore make-up work.

1. About how many cans make up this Soda Santa? How do you know?
2. How much is the Soda Santa worth (if your not sure how much a 12-pack of Coke costs, do a little research or come up with a class estimate)?
3. My favorite soda is Sprite. What is the probability of me randomly selecting a 12-pack of Sprite from this display?
